RENO, WASHOE COUNTY, NEVADA, THURSDAY, AUGUST 23, 1883.

NO. 124

MISCELLANEOUS.

SEEK

Health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN'S IRON BITTERS and taking it regularly according to directions.

Needham, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great nervousness on my head, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try BROWN'S IRON BITTERS. I have now taken one bottle and a half and am about well—pain in side and back all gone—strength all out of my head, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the King of Medicines.

JOHN K. ADAMS.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic; together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

COAST ITEMS.

J. H. Austin, aged 82 years, committed suicide near Chico last Sunday by hanging.

The famous Sierra Buttes mine will shortly have an additional mill of 50 stamps in operation.

At Shingle Springs an 11-year-old son of Thomas Wallace was badly wounded. He didn't know it was loaded.

C. J. Woolson, aged 28, suicided by strychnine at Los Angeles Tuesday. He was lately from Cleveland, Ohio.

The Concow valley is fast filling up with campers, most of them being ranchers from Colusa and the Sacramento river.

Unfavorable comment is made at Guaymas, Mexico, in regard to the present status of Crook's mission into the Sierra Madres.

A well 90 feet deep has been sunk in the Court-house square, on the north side, striking a vein of pure, soft water, at Stockton.

The epizooty is prevalent among the horses in Contra Costa county, and some valuable animals have died from the effects of it.

CINCINNATI, O.—The Times-Star says that as a remedy for rheumatism and a cure for pain, St. Jacobs Oil takes the lead.

W. H. Hale, late cashier of the Bank of Martinez and an old and highly-respected resident of Contra Costa, cashed his mortal check last Monday.

Thomas Howard, a farmer residing between Santa Clara and Alviso, was thrown from his buggy on Monday evening, and sustained a concussion of the brain, which resulted in his death.

John Cassidy, a roadmaster on the Southern Pacific, was killed in trying to board a train in San Bernardino county on Sunday. He was a single man, a native of Rhode Island, aged 42 years.

The proprietor of the "Iron Jaw," a low dive in Red Bluff, has threatened to whip Rev. Dr. Haswell for exposing his den, and the citizens have got the halter ready for him when the whipping is attempted.

Perry Vickers, an old pioneer, was shot and killed on the 19th, in the Cascade mountains, Oregon, by Charles Steele. Vickers and several others were following Steele to arrest him for the theft of a gun, when the party suddenly came on Steele, who fired the shot and fled into the woods.

A triangular rawhide tournament took place on Saturday last at San Luis Obispo, three ladies being plaintiff and a young male hoodlum being defendant. The implement of torture was wielded with such convincing logic that the youthful culprit will in future be chary in his aspersions on female characters.

A Total Eclipse Of all other medicines Dr. R. V. Pierce's "Golden Medical Discovery" is approaching. Unrivalled in bilious disorders, impure blood and consumption, which is scrofulous disease of the lungs.

The very best iron preparation, and the one having the largest sale is Brown's Iron Bitters.

Urgent and Patent Medicines Of every description sold cheap by John F. Myers, Virginia street, next to Barnett's.

A Peerless Perfume. The refreshing aroma of Florence's Cologne, and its lasting fragrance make it a peerless perfume for the toilet. J. F. Myers.

The finest brand of Kelly's celebrated Key West Cigars are to be had at John F. Myers' Drug store on Virginia street, next to Barnett's.

For cheap Drugs, Toilet Articles, Patent Medicines, Perfumery, etc., call at John F. Myers' Drug Store, Virginia street, next to Barnett's.

HOPSTETTER'S
STOMACH BITTERS
Hostetter's Stomach Bitters by increasing vital power, and rendering the physical functions regular and healthy, and keeps the system in good working order, and protects it against disease. For constipation, dyspepsia, indigestion, biliousness, headache, neuralgia, kidney and rheumatism, it is invaluable, and it affords a sure defense against malarial fevers, besides removing all traces of such diseases from the system. For sale by all druggists and dealers generally.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels constive, Sick Headache, Biliousness after eating, Nervousness, Irritability of body, and a feeling of heat, or aching in the liver, stomach, bowels, etc. and demand the use of a remedy that acts directly on the liver. As a liver medicine TUTT'S PILLS have no equal. Their action on the kidneys and skin is also prompt; removing all impurities through these organs, and giving the system a regular, healthy, and vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect ANTIDOTE TO MALARIA. Sold every where. Price 25 cents a box. TUTT'S MANUAL OF DYSPEPSIA FREE.

TUTT'S HAIR DYE

Gray hair turned black in a single application of this dye. Sold by Druggists, or sent by express on receipt of \$1. Office, at Mulvey Street, New York.

TUTT'S MANUAL OF DYSPEPSIA FREE.

Swindlers and Their Victims—

How Careless People Suffer in Health and Pocket.

Every streak of sunshine creates a shadow, and behind every truth crouches its corresponding lie. Whoever has not been in some way fooled and robbed by swindlers and their works has had better look to it than most mortals. In fact, the best witnesses to the value of a given article are the counterfeits and imitations which seek to share its success without possessing a fraction of its merit. Hence it goes without saying that

HENSON'S CAPCINE POROUS PLASTER. Are pursued by a host of miserable and worthless imitations, eager to appropriate what they can of the fruits of its victories. These leeches commonly take the form of a cheap plaster.

Now, these worthless and harmless plasters would be detected in a minute if people were careful in reading and remembering names. But most persons merely glance at them, understand partially and forget instantly. What result? This: Desiring to buy HENSON'S CAPCINE POROUS PLASTER, their own carelessness enables some storekeeper or druggist, who cares more for five or ten cents additional profit than for the sweets of an approving conscience, to roll them up instead some cheap imitation with a similar name. The deceit often works, while the fraudulent plasters never do.

Don't permit yourself to be thus victimized for lack of a moment's care. HENSON'S CAPCINE POROUS PLASTER have stood the test of science and experience and are the product of both. Examine the article and satisfy yourself that the word CAPCINE is cut in it.

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a fact long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

THURSDAY.....AUGUST 23, 1883

A SODA FIELD.

The influence of the Carson and Colorado railroad is being felt in more directions than one. It is now the great factor in developing the various resources south of us. One of the direct benefits, other than to aid in developing a region rich in gold, silver and copper, it brings the vast yield of borax and soda, which is abundant along its line, within the reach of a good market. It was not many years ago that the people of America were wholly dependent on foreign countries for these commodities, which were produced at great expense. It is but recently that either of these productions, which figure so extensively in manufacturing and domestic uses, were found in our country; yet Nevada is rich in both of these minerals. B. F. Gray of Churchill county, who is one of the pioneers in producing soda at Soda Lake, and is undoubtedly the best practical soda man in the State, by his observations at the Soda Lake, developed a theory in reference to soda before unknown, and one which scientists were forced to recognize. This theory caused him to believe that there were rich deposits of soda elsewhere in the State, and he put himself on the alert. He was attracted to what are known as the Double Springs, near the north end of Walker Lake, in Esmeralda county, which were utilized only as a watering place for a cattle range. The owner of that range little dreamed of the wealth there is in that basin of "alkali." Gray, by thorough tests, satisfied himself of the value of the "marsh," but for want of cheap transportation that bed of wealth was unavailable, and it lay as so much waste till now. The railroad there has made transportation practical, and now, after years of waiting and watching, Gray has associated with himself John Horstman, proprietor of the Pacific Soda Works, San Francisco, and they have combined their practical knowledge, and from this deposit they will become, doubtless, great competitors of the English and American soda producers. Through Nature's process, a surface of nearly a thousand acres in that basin is covered with a coat from three inches to several feet thick that will yield, by reduction, from ten to ninety per cent. pure soda. How this deposit was placed there we will not attempt to say. It is sufficient to know that it is there, and that the formation is such that as fast as one coat disappears, through Mother Nature's chemical action, another will take its place, and, if it were not for the drifting sand, in an almost pure state. Careful experts have estimated that there is on the ground now owned by Gray & Horstman enough material to produce at least a half a million tons of pure soda. One of the valuable features of this discovery and its utilization is, soda is largely used in the making of borax, which is found in large deposits in the form of chloride of lime, and other forms farther south. Thus its value is not only as a marketable article, but its nearness to these forms of borax and cheapness will add very largely to the production of borax. These two comparatively new industries will invite and bring capital into the State; will afford employment for labor; a large patronage to the railroads, and a revenue to the State for State purposes.

Messrs. Gray and Horstman are now putting up their furnaces for making soda ash, and will have them in operation in a few days, and as fast as possible place their vats and drying sheds for making soda. The lateness of the season will prevent them from producing much soda this year, but it is their purpose to be in readiness to make large shipments early next year.

LABOR STRIKES.

The telegraphers' strike has ended. There were three parties interested in the war, namely: The

Western Union Telegraph Company, the operators and the public. And all are worse off than before the trouble. The Western Union lost enough to pay the wages the poor, under-salaried operators demanded, for years to come. The public suffered by not having the news channel of commerce properly handled, and last, but not least, the operators. Many of them could not afford to remain idle for 20 odd days, for that time represented money, and money would pay little bills and buy bread. So, taking it all in all, everybody interested is worse off now than before the strike. The lessons it teaches, however, are many and valuable. It proves conclusively that a labor strike is not the best way of redressing wrongs or of adjusting difficulties arising between the employer and employee. It proves, too, that those who were chosen by the Brotherhood to act as the leaders of a move against capital were too dishonest, and incompetent to conduct an army of aggrieved laborers to victory. They have shown, by their management, that organization was lacking, and that their failure was as much due to lack of brains on the part of the management as to any other cause. They were out-generated all the way through, and have been obliged to suffer the humiliation of defeat. The poorly-paid operators, many of them at least, lived in tenement houses before the strike, with large families to support, and are still living in them with no more flour in the locker than before the trouble. The tired wife must wear her dresses a little longer to make up for the 20 days' lost time; the children must go barefooted until snow flies, in order to give Jay Gould a chance to make more money, by paying this little army a scanty salary for doing the work he requires skilled labor to perform. Labor strikes are bad, but Jay Gould is worse.

EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

A Probable Shipwreck.

Boston, August 23.

The yacht mystery, which sailed from New London for Nantucket August 11th, and not since heard from, had on board Leicester Sargent of New Haven, Rupert Sargent of New York, Mr. Bartlett of New York, and Mr. Hawkins of New Haven. Leicester Sargent is a son-in-law of Mr. Glenn, who belongs in Cincinnati. Mrs. Glenn and Leicester Sargent's wife were spending the Summer at Nantucket. Sargent was going home with the party mentioned, to join them. Mr. Glenn thinks it possible the yacht may have been blown off the coast and the passengers picked up by an outward-bound vessel. Mrs. Sargent and mother have returned to New Haven.

Three bodies were recently picked up, one clad in a yachting suit and encased in a life-preserver, supposed to be of the Mystery party.

WEST FALMOUTH, Mass., Aug. 23.

The friends of the New Haven party who sailed on the yacht Mystery, after a careful examination, are convinced that the body found on the beach is that of Rupert Sargent, one of the yachting party, and the relatives have been telegraphed to that effect.

A Terrible Cyclone—A Train Blown from the Track and a Hundred People Killed and Wounded.

WINONA, Minn., Aug. 22.

At 11 o'clock last evening a cyclone struck the north part of the city of Rochester, Minnesota, making a clean sweep of the elevators, residences, railroad engine-house and other property along the railroad, which was completely demolished. Mayor Witten telegraphed that 25 persons were killed and 40 wounded. The city is in need of clothing, food and assistance. Among the killed are John McCall, proprietor of the planing mill, and Superintendent Sanborn, of the Winona and St. Paul Railroad Telegraph. The list of killed and wounded is hourly increasing. The storm swept three other towns—Ulrich, St. Charles and Winona. Job Thornton was killed. A report from Dodge City indicates much damage with loss of life. Mayor Ludwig of Winona, with a corps of surgeons, left for Rochester this morning.

OWATONNA, Minn., Aug. 22.

Meager dispatches were received here early this morning of a terrible accident which occurred between Rochester and Zumbrota, Minnesota, on the Rochester and Northern Division of the Chicago and Northwestern Railroad, by which about 100 people were killed and wounded. The train wrecked was that which leaves Rochester about 4:45, arriving at Zumbrota about 6 P. M. It was caught in a severe wind and hail storm that prevailed in that vicinity between 4 and 6 o'clock in the evening, and while run-

ning at a high speed was lifted from the rails. Gentlemen who have been at the scene of the disaster describe it as one of the most horrifying railroad accidents ever seen. Every car in the train was completely wrecked, and almost literally shattered to pieces, by the sudden stop caused by the train leaving the rails, burying the unfortunate passengers beneath the debris, killing many and injuring nearly every person aboard the train. A gentleman stated that nine dead bodies had been taken from the ruins, and a large number of those who were seriously injured removed to Rochester and Owatonna, at the time he left the wreck, and the work of extricating the unfortunate victims was still progressing.

ROCHESTER, Minn., August 23.

The cyclone of Tuesday night started near Owatonna and followed the line nearly a mile south of the railroad crossing at Rochester, and following along north of the road, and passed east 25 miles. Three miles north of the railroad it varied in width from one to three miles, and did not shift as usual, but made a clean sweep in its track of houses, barns and crops. As far as heard from, six persons were killed outside of Rochester, and the loss to crops is estimated at about \$300,000.

An Underground Telegraph Company.

ALBANY, August 22.

Articles of incorporation have been filed with the Secretary of State of the "Electrical Conduit Construction Company," with a capital stock of \$1,000,000, divided into 100,000 shares. The incorporators are H. W. Pope, Vice-President of the Manhattan District Telegraph Company, New York; A. B. Chandler of the Fuller Electrical Company, New York; H. W. Fairbanks, Superintendent of the Postal Telegraph Company; C. A. Brown, manager of the Western Electrical Company; S. F. Kneeland of New York; Professor Eliza Gray and D. N. Hurlbut of Chicago. The object of the company is the construction of underground telegraphs and telephones, which, under patents owned by the company and endorsed by the most eminent and practical telegraphers, can be done with greater economy than by any other device yet known. The inventor is D. N. Hurlbut, the well known telegrapher of Chicago.

Wind, Hail and Fire.

MILWAUKEE, August 22.

Dispatches from the northern and central part of Wisconsin report great damage from a wind storm last night. At Stevens Point and in Wood county, the crops, fences, buildings and mill dams were torn to pieces. An old man in Wood county was seriously but not fatally injured by flying debris. The towns of Stockton and Newport were visited by a terrible hail storm; corn, oats and hops were badly damaged, and live stock killed at several points by flying rails. In Brown county and around Green Bay, the wind and hail did similar damage, no loss of life reported. An Ashland dispatch says the forest fires were raging about the city all day, and the place had a narrow escape from destruction. The mills were shut down, and the men turned out in gangs to fight the flames.

The Canadian Pacific.

TORONTO, August 23.

The Directors of the Canadian Pacific Railroad Company arrived by a special train over the Grand Trunk, accompanied by a party of capitalists on this continent and Europe, for a trip over the Canadian Pacific road. Among the number are Prince Hohenlohe and Province Admiral, Count Gleichen of Germany; Earl Latham, Lord Eppingstone Castleton and Anslow of England; members of Parliament, as well as representatives from the United States and Canada. The distinguished tourists go by the Rocky Mountains and will return in three weeks.

An Experienced Agent.

OMAHA, August 23.

H. H. Browning, who has been appointed the superintendent of the western division of the Northern Pacific Express Company, with headquarters at Portland, Oregon, left Omaha yesterday for Portland, via San Francisco. Mr. Browning for several years has been the agent at Omaha of the American Express and Wells-Fargo's Express, and for 19 years he has been in the employ of the American Express Company.

Murder and Suicide.

NEW YORK, August 23.

Elizabeth Cameron, 28 years old, was shot through the head and instantly killed, in her apartment at No. 408 Eighth avenue, this morning by Geo. Beatty, 44 years old. After killing her, Beatty shot himself through the heart and fell dead across her body. The cause of the murder and suicide is unknown.

The Trial of Frank James.

GALLATIN, Mo., August 23.

To-day finished an interval in the James trial, the Court having adjourned until to-morrow noon in order to give the attorneys an opportunity to prepare challenges. The interest is still sustained, although the

crowd to-day is naturally smaller than that of yesterday. James sees but few persons, except his attorneys; he maintains an undisturbed demeanor and does not manifest any anxiety as to the result of the trial. His mother, wife and child are here. The community was thrown into a high state of excitement to-night by it becoming known that two of the most prominent citizens of Gallatin, Hatfield Davis and Alex. Irving, who are witnesses in the James trial, had received notices through the Postoffice. Both men were active in their efforts to capture the murderers of Captain Sheets in 1869, and took part in the pursuit and had a running fight with the James party at the residence of Mrs. Samuels. Notes were dropped into the office addressed to each man, written by the same hand, and run thus: "You better be careful about your evidence against Frank James. A friend." These notes have aroused a strong feeling among the citizens, who regard it as a cowardly system of intimidating witnesses; while the theory of James' friends is, that the notes were written by his enemies to prejudice public sentiment against him. One thing is assured, the witnesses for the State cannot be intimidated by such a course. A meeting of James' counsel has just been held, and they bitterly denounce the letters to Irving and Davis as a trick on the part of enemies to excite popular opinion against him, and they disclaim all such methods as emanating from friends of their client.

An Australian's Opinion.

CHICAGO, August 23.

Sir Henry Parks, a member of the Colonial Parliament of Australia, and ex-Premier, who arrived from San Francisco yesterday, in speaking of the duty on Australian wool, says the Australians considered it a hardship for the United States to keep up higher rates of duty. "I am thoroughly a free trader," he said, "I believe in it absolutely, but I don't want to thrust my opinion on the American public. Everything made in America is admitted free of duty into my colony and New South Wales. When I say everything, I mean manufactured goods; the exception being a duty on tobacco and spirits, which is imposed by Australia to secure revenue only; we don't impose any tariff for protection purposes. Whatever tax we levy on America we levy on England. Does the American tariff on wool act as a prohibitory tariff to your people? No, because Australian wool is imported. There are a few manufacturers in San Francisco who turn out woolen goods equal to any in the world, and some of their blankets are the best I ever saw. In manufactured goods they are obliged to mix some Australian wool with American wool. Why? Because they could not produce such goods without Australian wool, it being finer than any wool grown in America."

An Innocent Chinaman.

YANKEE, D. T., August 23.

News has been received of the legal execution of Ah Young, a Chinaman, in the jail yard at Missoula, Montana, two days ago, for the murder of another Chinaman, January 28th. He protested his innocence to the last and met his fate without flinching.

More Forest Fires.

MILFORD, Mass., August 23.

A fire in the woods south of Milford has burned over 100 acres, and the dwelling houses are now threatened. The drought is very serious in this section.

He Wants to Learn How.

TORONTO, Ont., Aug. 23.

Prince Hohloeh, in an interview, said his mission is greatly misunderstood. The German Government had no intention of encouraging the emigration of Germans to Canada, but simply desired to ascertain how the English carried on the system.

TELEGRAPHIC BRIEVITIES.

—There was a \$20,000 fire at Syracuse, New York, yesterday.

—The trial of Frank James was begun at Gallatin, Missouri, Tuesday.

—An \$80,000 fire occurred at Chester, Pennsylvania, yesterday, and one man killed.

—John McCullough received a perfect ovation at the Laban Opera House in Denver last night.

—Extensive flour mills, near Killarney, Westmeath, Ireland are burned; three persons perished. Loss, \$140,000.

—The London Times correspondent at Vienna says the report that Spain will join Austria and Germany in an alliance is idle gossip.

—The French suffered a decisive repulse in the recent attack on a strongly fortified Chinese position, and it is thought the French army will have to be increased to 100,000 men before they can make much headway.

MISCELLANEOUS.

A HOME DRUGGIST

TESTIFIES.

Popularity at home is not always the best test of merit, but we point proudly to the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best known Massachusetts Druggists should be of interest to every sufferer:—

RHEUMATISM.

"Eight years ago I had an attack of Rheumatism, so severe that I could not move from the bed, or dress, without help. I tried several remedies without success if any relief, until I took AYER'S SARSAPARILLA by the use of two bottles of which I was completely cured. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public."

River St., Buckland, Mass., May 13, 1882.

SALT RHEUM.

GEORGE ANDREWS, overseer in the Lowell Carpet Corporation, was for over twenty years before his removal to Lowell afflicted with Salt Rheum in its worst form. His ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by AYER'S SARSAPARILLA. See certificate in Ayer's Almanac for 1883.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; \$1, six bottles for \$5.

FIFTY CENTS PER WEEK

All Classes of Legitimate Advertisements Not Exceeding Six Lines Inserted in this Column for Fifty Cents Per Week.

Settle Up.

All persons indebted to me are requested to call and settle immediately with J. F. Emmitt at Reno, Nevada. aug22-1w W. F. THOMPSON.

Furniture.

If you want a good bargain in new or second-hand furniture, you can get it at P. J. Toll's Furniture Store, corner 2d and Virginia streets, Reno. aug22-1w

For Rent.

HOUSE with 8 hard-finished rooms, kitchen and cellar; also house with 4 hard-finished rooms, kitchen and cellar, adjoining lot, good well and water pipes, on Fourth street. Terms liberal. Inquire of [aug22-1w] A. ADAM.

Blood and Bed-Bugs.

GOOD BLOOD is desirable. Bed-bugs are a nuisance. I have for sale two six-month-old malarial Berkeleys, as also fresh reliable bed-bug powder, just received. [aug21-1w] A. H. BARNES.

Piano Tuning.

PROFESSOR CARA will be in Reno August 27th and 28th, and will fill any orders for tuning left with Martin & Augustine. aug21-1w

Millinery and Dressmaking.

WE ARE prepared to do dressmaking and all kinds of millinery work on the shortest possible time. MRS. DEXES WINZELL & MERRILL. aug18-1w

Bishop Whitakers' School.

FOR GIRLS. The eighth year will begin Thursday, August 30th, at 11 o'clock. aug17-2w

Settle Up.

All persons indebted to the undersigned for goods delivered prior to Aug. 17, 1883, are requested to call and settle, either by cash or note. All unsettled accounts will be placed in the hands of a collector Sept. 1st. [aug17] JOHN BOWMAN.

Cards.

BROOKINS is just in receipt of a lot of Birthday Cards of the latest designs; also a good assortment of picture frames. aug17-1w

Has Returned.

I HAVE just returned home, and those desiring dental work will find me at my residence for one week. aug17-1w Dr. E. H. HURCHESON.

Pianos and Organs.

G. WEDEKIND, the piano tuner, is in town ready to tune pianos or organs, and asks for a share of the patronage of this community. aug13-2w

Pasture.

200 ACRES of good grass pasture at Glendale. Mrs. J. A. BLADELL. aug8

Horse Found.

ONE iron-gray horse with no brand came to my ranch on April 1, 1883. The owner is hereby notified to call, pay charges and take him away. aug8-1w G. ULYATT.

For Sale.

ONE 5-year-old Durham bull (Biddleman stock), for sale cheap. aug8-1w G. ULYATT.

Rooms to Let.

BOARD for \$4.50 per week. Apply to Mrs. Couch of the Inverness House. Rooms to let. aug21-1w

Ice for Sale.

J. F. AITKEN furnishes ice at 1/2 cent per pound, in any quantity; families and stores 50 cents per week; leave orders at M. T. Barnett's. aug21-1w

Settle Up.

ALL PERSONS indebted to the firm of Manning & Berry will call at the Reno Savings Bank Building and settle at once, or suit will be commenced without further notice. MANNING & BERRY. Reno, June 20th.

Cool Off.

I AM delivering ice to families at 1/2 cent per pound. My ice is of the purest and best. Delivered daily at your door. my21-1w G. W. J. WILSON.

Vegetables.

I AM carrying a full stock of all kinds of vegetables and fruits, in season, including oranges, lemons, bananas, pineapples, cabbage, potatoes, onions. Call. [aug21] E. C. LEADBETTER.

BEST OF GOODS AND WORKMANSHIP

The Carpenter's Steel Square and its uses, new and enlarged edition. Price of book, \$1, with the California Architect and Building News; 1 year; sent to any address, for \$2.50. Address Geo. H. Wolfe, 240 Montgomery street, San Francisco.

W. R. STRONG, ROBT. WILLIAMSON, P. E. PLATT.

JOTTINGS.

Five bars of bullion were taken below by Wells-Fargo to-day.

Dan De Quill is very handy with his scissors.

The finest liquors of all kinds by the bottle at Chase & Thyes.

Robert H. Lindsay is the happy daddy of a little daughter, born this morning.

Jewelry at cost at Nash's. Thermometer at 7, 9, 11, 1, 2—64, 76, 82, 86, 86.

Six cars of emigrants went east this morning, three more cars than went the other way.

R. B. Whitaker's team, from Cedarville, California, loaded yesterday for home.

Frank Hostetter of Janesville, Lassen county, Cal., loaded one of McClellan and Dakins teams yesterday for the above place.

Robinson's circus employs 250 men. Last year the concern cleared \$300,000, and this year it is estimated the profits will be \$400,000.

There is nothing in the line of groceries that cannot be found at the family store of J. K. Everett. Try some of his English breakfast tea; experts say it is superior to anything in the market.

The Palace Hotel in Reno is acknowledged by its patrons to be one of the best conducted hostleries in the State; the rooms are large, light and airy, and the beds are new and always kept in perfect order.

F. Levy & Bro. keep on hand at all times a full line of napkins, towels, crash, Irish linen and table covers with napkins to match, which they are selling lower than the same articles can be had at retail in San Francisco.

The amount of vegetables and all kinds of perishable goods being handled by A. Lindley & Co. renders it an easy matter to keep a fresh supply constantly on hand, as they sell out that class of goods at same price every day.

Whisky, brandy, gin and rum for those in need of stimulants; wine, ale, porter and lager for the temperate, and lemonade, mineral water and soda for the Good Templars, can all be had at Chelovich & Co.'s on Commercial Row.

If you don't feel like "walking a half dozen blocks for your lunch, just call into J. J. Becker's saloon and see what you can buy for 12 cents. Boston baked beans, brown bread and more other filling edibles than you often find on a lunch table.

Lager beer from the Pacific brewery by the glass, bottle, quart or gallon can be had at the Granite saloon, George Becker proprietor, on Commercial Row. Mr. Becker has convinced this community that beer as good as any in the Coast can be manufactured in Reno.

Glass, crockery and agate ware can be had at Knowles & Baldwin's, for less money than the same class of goods can be bought from any other firm in the State. Obliging and good-looking clerks always stand ready to show customers about the establishment.

A PLEASANT TRIP.

The Knights of Pythias Talk of an Excursion to New Orleans Next April.

The Supreme Grand Lodge of the Knights of Pythias of the United States will meet at New Orleans next April. Members of the Order in this State are talking of getting up an excursion from here to attend the session. Several prominent members have investigated the subject somewhat, and think arrangements can be made with the several railroad companies for a rate of \$20 or \$30 for the round trip. It would be a delightful journey to take at that season of the year, and many would avail themselves of the opportunity of paying a visit to the "old folks at home." It is said that the annual Mardi Gras festival will be postponed from March to April in order to give the visiting Knights a chance to witness this the grandest of Spring festivities.

The Male's Competitor.

Dr. Sketchley, who has charge of the ostrich farm at Anaheim, says the Los Angeles Express, was plucking one of the things the other day. When they pluck them, a stocking is put on the head to blind the bird. While he cannot see he is quiet, but if his blinkers get uncovered, then he "goes for" the plucker. The doctor moved his arm so as to disturb the stocking, and instantly he saw what was done and went head first out of the pen, not caring for any more plumes just then. As he tumbled over the fence, the bird—he was a jack one, of course—let fly a kick which, striking a fence board, made tooth-picks of a whole panel length. The male's occupation as a kicker is gone in this country since the ostrich came.

Got Rich in Sixteen Minutes.

The Bodie Free Press says: Seventeen Bodie Knights, on their way to the Bay, went into a Carson beer saloon and stayed there just 16 minutes. The proprietor the following day took a trip to Lake Tahoe, having made enough money for one summer. He told a reporter that no doubt the Bodie Knights would spend \$200,000 during their trip. It is an easy matter to make a Carson business man happy.

LEPROSY AND DOCTORS.

Dr. H. H. Hogan's Reply to Dr. F. B. Waggoner's Communication in Last Evening's "Gazette."

EDITOR GAZETTE: In the GAZETTE of yesterday there is an article from Dr. Waggoner on leprosy, asking me to correct the mistakes I had made regarding the Chinaman Sam. He gives a long description of the disease by Virchow, and says I will recognize him as authority. I certainly do. Virchow and I agree exactly—that is, I agree with Virchow, but differ very materially from the gentleman who has quoted him so learnedly. I have no desire to gain a cheap notoriety by quoting leprosy authorities on leprosy, for I really know nothing more about the disease than Dr. Waggoner does, never having seen a case of it. It seems to me that a family newspaper like yours is hardly a proper medium in which to carry on a medical controversy between two such very erudite and scientific gentlemen as Dr. Waggoner and myself. The big words we should hunt up and put at each other, of which neither know the exact meaning, would be perfectly appalling to most of your readers, who have no idea how profound and learned we doctors can make ourselves appear by the judicious use of some of these large words that we have chewed up, digested and stored away for ready reference.

To Dr. Waggoner, allow me to say, that I wrote the note to M. C. Lake with the best of intentions. I would write the same note to-day without changing one word of it. When I wrote the note I expected Dr. Waggoner would do just what he has done—go into the newspaper with it—as I believed he could not let such an opportunity pass to show up my ignorance and his erudition. I will go before any intelligent medical Board in this State, or California, with Dr. Waggoner, and give the reason for the opinion I gave, taking the Chinaman with me, as the opinion was not given without meditation. But I have already asked for too much of your valuable space.

Respectfully, &c.,
H. H. HOGAN.
Reno, August 23, 1888.

REMARKABLE FORTITUDE.

A Chinaman—Eats a Banana While Being Impaled.

A correspondent, after describing an execution by impalement, as witnessed by a French officer at Tonquin before the recent trouble, remarks that the Orientals fear ordinary forms of death very little, and decapitation and hanging has as little terror for them as the workhouse for the common Anglo-Saxon criminal. Moreover, their nervous system, especially that of the Chinese and kindred races—is not altogether similar to the nervous system of Aryan races. The French officer who witnessed the method of execution by impalement avers that the criminal continued to eat a banana until the operation was half completed, and many travelers concur in bearing evidence that the Chinese exhibit under torture a degree of fortitude equal, if not superior, to the well-known stoicism of the American Indian. But the correspondent thinks it is rather strange to learn that a part of the iron machinery used in the impaling process referred to bears the trade mark of a French iron master.

The Case of George Mable.

The remains of George Mable, who died at the County Hospital in this place, were taken to Virginia City by his nephew, John Mable, yesterday. The nephew seems to regret that the impression got abroad that the deceased committed suicide, and shows a burial permit signed by Dr. Waggoner certifying that he died from congestion of the brain, but the Dr. does not say what produced the congestion. THE GAZETTE has no desire to injure the feelings of the relatives of the dead, but it must be permitted to repeat that the case seemed to be a suicide. The attending physicians say that the congestion was produced by either laudanum or morphine.

Northern Notes.

L. D. Folsom, of Gallatin & Folsom, returned last evening from his ranch at Willow Creek, Lassen county. He reports the farmers in that section happy, prosperous and well satisfied with their year's work. He says the fruit and hay crops are excellent; that stock is in good condition, but beef scarce. Mr. Folsom thinks Reno will yet be obliged to put her shoulder to the wheel and extend the Nevada & Oregon railroad into that country if she expects to keep the trade.

Let Them Hump.

Dr. H. F. Hamilton says that at least once a day girls should have their halters taken off, the bars let down, and be turned loose like young colts. "Calisthenics may be very genteel, and romping very ungenteel, but one is the shadow, the other the substance of healthful exercise."

Large Shipments of Cattle.

L. Brooks, who arrived from Humboldt Wells last evening with eight cars of fat cattle for the San Francisco market, informed a GAZETTE reporter that between Wadsworth and San Francisco there are 51 car-loads, or 1,500 head of cattle on the way to the Bay.

PERSONALS.

Alex McKenize, the superintendent of the Mount Cory mine, near Hawthorne, was a passenger for the Bay on this morning's express.

H. H. Kirchner (Pierre Hyacinthe) of Eureka, who spent yesterday at the Insane Asylum, returned to the Base Range this morning.

The family of R. V. McCurdy, of the Paradise Valley mines, came down from the Comstock this morning, on their way to join him in Humboldt.

R. W. Wood and sister, Mrs. Nichols of Winnemucca, were visiting Reno friends yesterday. Mrs. Nichols returned home this morning and Mr. Wood took the west-bound train for Tombstone, Arizona, where he goes to put up gasworks similar to those at Winnemucca.

CATTLE ON THE PLAINS.

A Continuous Herd From Little Humboldt to the Platte River.

J. P. Holliday, who left Crutcher's ranch, in Paradise valley, on the 22d of May last, with a band of horses for North Platte City, Neb., writes the Silver State from Laramie, under the date of August 15th, as follows: "I am now camped under the shady cottonwoods on the Platte river, surrounded by 600 horses, which are feasting on the rich grasses. Twenty years ago I was camped in the same spot on my way to Nevada, but things have changed in that time. The cowboys have taken the place of Indians, and cattle that of buffaloes. There is one continuous herd of cattle from the Little Humboldt to the Platte river. Feed is very fine along the road, especially in Idaho, which is the best grass country I have seen, and cattle are generally in good condition. Doves of cattle are coming every day from Texas and the Atlantic States, and ranges on the Sweetwater in Wyoming are stocked with them. There are very few horses in this country, and saddle horses, and, in fact, horses of any kind are in demand. There is a heavy emigration through here from Kansas to Washington Territory, reminding one of the days of '68. Our horses are in fine condition, and we have had very good luck. I will be through by the first of September, and will then return to Winnemucca."

One by one the scenes of the old Franciscan Fathers are brought to light, as excavations are made near the old Mission, says the Santa Barbara, Cal., Press. A singular discovery was made near the city of San Luis Obispo a few days since. The Tribune is authority for the statement that some workmen, in making excavations in the side of the San Luis Obispo mountain, discovered an ancient smelting furnace, the remains of the arches and smelting pots being quite abundant.

AN INTERESTING DISCOVERY.

An Ancient Smelting Furnace Discovered in Southern California.

One by one the scenes of the old Franciscan Fathers are brought to light, as excavations are made near the old Mission, says the Santa Barbara, Cal., Press. A singular discovery was made near the city of San Luis Obispo a few days since. The Tribune is authority for the statement that some workmen, in making excavations in the side of the San Luis Obispo mountain, discovered an ancient smelting furnace, the remains of the arches and smelting pots being quite abundant.

The Nevada Shooting Team.

George C. Thaxter of Carson gives the average per cents. of those who have taken part in the rifle competitions for place in the interstate team, and shot three or more scores, as follows:
Cowing.....89 King.....88 1-5

A Good Paper.

The WEEKLY GAZETTE issued every Thursday is one of the best papers on this coast. To-day's number is unusually interesting. Its pages contain editorial comments on all interesting topics, the latest telegraphic reports from all parts of the world; also a detailed account of the Knights Templar Conclave, in San Francisco, and everything of a local nature which transpired during the past week. Subscription price \$2 per year. THE WEEKLY GAZETTE has a very extensive circulation and is invaluable as an advertising medium.

A scientific chemical compound that gives health and strength is Brown's Iron Bitters.

The Wrong Nevada.

The Carson Appeal says: The dispatches from the Bay tell of the grand effect produced by the Nevada giants in line in the procession. When one pauses to think of Geo. R. Davis, Pearl Ellis, J. Eckley, Geo. Richards and other sagebrush colossi in line we are not surprised at the admiration of the San Francisco mob. From the telegraphic report it was the Nevada City Cal. Commandery which attracted so much attention on account of their "great stature."

TRUCKEE ITEMS.

Interesting Jots From a Prosperous Section.

The following are taken from the Republican of August 22d.

On the 2d. Two weddings. Both to take place next week.

The railroad Company are disposing of all their land in this vicinity.

The Truckee Lumber Company's mill is running full handed and is drove up with orders.

Trave' to Tahoe and the lakes has been light during the past week. It is probably on account of the Conclave.

Fishing is good in Cold Stream, and Truckeeites who daily visit the favorite resort, bring in large strings of the speckled beauties.

Twenty thousand eastern trout were received here Sunday morning. They were from the McCloud river fishery, and were taken to Webber Lake by a special team. Fish Commissioner Dibble procured them.

C. H. Barnard is still conspicuous by his absence. The mill and lath are still in possession of the Sheriff, and the men who worked there have about ceased sighing for their wages. Barnard is supposed to have gone to British Columbia.

The present C. P. time schedule makes the depot a pleasant resort for all during the forenoons. The departure of the passenger trains is followed by the emigrant trains, which always has several cars loaded with pilgrims following the advice of Horace Greely.

Lonkey & Smith's Banner mill, which is probably one of the best on the Truckee river, is turning out lumber at the rate of 40,000 feet per day. They are also driven up with orders in the box factory at Camp 16. The present will be one of the most successful seasons this firm has had for years.

Six hundred thousand feet of lumber was cut at the Truckee Lumber Co.'s saw-mill during the week ending August 18. This is the largest week's work ever done in that mill, as most of the lumber saved was boards. Jake Lammerhot and Joe Kane were the sawyers.

Low Water in California.

The Nevada Transcript says: This is a season of low rivers in California. The Sacramento, Yuba, Feather, Bear, American and Truckee rivers are all said to be much lower than usual at this time of the year, the cause being that the mountain snows, by whose melting the rivers are fed in the Summer, are less than usual in quantity.

Fall Fights.

Fall fights have commenced; two well-known citizens indulged in a lively little go-as-you-please fight this afternoon. No great damage done.

BORN.

LINDSAY—At Reno, Nev., August 21, 1888, to the wife of Robert H. Lindsay, a daughter.

AYER'S Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured.

It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the Vigor is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume.

Mr. C. P. BRICHER writes from Kirby, O., July 3, 1882: "Last fall my hair commenced falling out, and in short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and caused a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. BOWEN, proprietor of the McArthur (Ohio) Enquirer, says: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The Vigor is also sure to cure dandruff, and within my knowledge has the preparation ever failed to give entire satisfaction."

Mr. ANGUS FAIRBAIN, leader of the celebrated "Fairbairn Family" of Scottish Yodelers, writes from Boston, Mass., Feb. 8, 1880: "Ever since my hair began to give away evidence of the change which fleeting time procured, I have used AYER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, orators, actors, and in fact every one who lives in the eyes of the public."

Mrs. O. A. PRESCOTT, writing from 18 Elm St., Charlestown, Mass., April 14, 1882, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR VIGOR the falling stopped and a new growth commenced, and in about a month my head was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly use the hair restorer of the Vigor, but now use it occasionally as a dressing."

We have hundreds of similar testimonials to the efficacy of AYER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value.

PREPARED BY
DR. J. C. AYER & CO., Lowell, Mass.
Sold by all Druggists.

A. C. NEALE

HAS REMOVED HIS FURNITURE store from the Old Pal owa' building to

THE RED STORE,
